Make-A-Wish® grants more than 600 magical wish experiences across Pennsylvania to children, age's two-and-a-half to 18-years, with life-threatening medical conditions every year. Do you know a child that may qualify? Please consider referring them today!

Make-A-Wish helps a child focus on something positive and strives to provide each eligible child and his or her family with **hope, strength and joy**. The most common misconception about Make-A-Wish is that it only provides wishes for dying children. On the contrary, Make-A-Wish believes that a wish invigorates a child and his or her family with a joy for living and empowers a child to fight harder against their illness. In fact, according to a recent study, 75% of wish parents saw an increase in their child's physical health and strength after a wish experience. Nearly 80 % of wish children defeat their illness!

It is the child's doctor that determines if a child is medically eligible to receive a wish. To learn how to refer a child you know with a life-threatening medical condition, please call 1-800-480-9474, email email@wishworld.org or visit www.wishgreaterpa.org/refer. A referral only takes a few minutes, but the memories of a wish last a lifetime.

A copy of the official registration and financial information may be obtained from the Pennsylvania Department of State by calling toll-free, within Pennsylvania, 1-800-732-0999. Registration does not imply endorsement. West Virginia residents may obtain a summary of the registration and financial documents from the Secretary of State, State Capitol, West Virginia 25305.
